

Take Will to register of Wills at City Hall. When doing so, ask what documentation you'll need to close bank account, transfer car, close other accounts.

Close bank account. I have a checking account with Beneficial. However in August 2019, Beneficial is transitioning to WSFS. All bank statements for 2019 are on top of my desk next to trays including transitioning info.

IMPORTANT!!!! Before closing bank account tell Trev to replace my debit card with his credit card at PHP Webhosting (provider for my site). He knows about this. And tell him to tell you when it's done and that it is time sensitive.

Call Social Security and tell them to stop payment. They usually direct deposit by the 3rd of each month. They WILL want money back. In the top right drawer of my desk, there is a cigar box with an envelope underneath with my SS card.

Medicaid and Foodstamps (AKA EBT or SNAP for food stamps). If I am still on Upsal Street, and still on food stamps and Medicaid, that should be stopped ASAP, otherwise they will charge the estate. The number for the Germantown Assistance Office is: 215 560-5200. If that number is perpetually busy, try 215 560-7471, which will hopefully get you a caseworker. You will find my case number (SS# can also work) in a manila envelope in the middle left drawer of my desk marked DPW. Also social security should be stopped because they too will bill the estate. In the top right drawer of my desk, there is a cigar box with an envelope underneath with my SS card.

With Medicaid, you may have to call the provider, PA Health and Wellness in addition to calling the DPW office. Their number is: (844) 626-6813. My Medicaid ID # is: 6103008899

My Medicare card is in my wallet behind driver's license and car registration.

All other important cards are in left hand pockets of my wallet. This includes SNAP Access Card, PA Health & Wellness Card, bank debit card.

Car title is in a manila envelope in middle left hand desk drawer titled Mazda Shit. Insurer is Allstate, I have an agent: The Rising Sun Agency. (215) 342-5400. Policy #: 977 680 042 The car must be sold or gotten rid of before insurance can be cancelled.

My phone is with T Mobile. From the address book on the phone, you can connect through customer care number: 611. I'm assuming calling that number only works from my phone. Or take it to a T Mobile store, they're

all over the place. I own the phone. I bought it outright. Before you shut it down, a lot of the numbers you might have to call are in my address book.

Call my dentist and cancel any upcoming appointments. (Howard Goldstein) (215) 657-0888

Notify Dr. Kostman: (267) 725-0252. His cell (since he won't know you, call don't text): (609) 954-0415

You will probably have to file a final tax return, you might want to check with an accountant since I've been living on social security alone for past few years. In middle drawer is an envelope that's labeled social security. All SS statements are in there. For 2019 it's been \$736 a month. That is all that should be reported, but again check with an accountant.

Other documents like birth certificate is in a manila envelope titled family documents. There's something that looks like a birth certificate that's ancient, but actually isn't. The birth certificate is obviously newer. Once everything is taken care of, those documents should go to Tony. In my closet there is a brief case that has documents relating to my father and also my injuries. It should probably go to Tony. If briefcase is locked the code is 524.

All cash in house and anything left in bank account goes to Mike. If I'm still at Upsal, in bookcase opposite my bed on the bottom shelf are two photobooks on cars. There is cash in both of them.

Almost all audio and video equipment has boxes except the cassette player and the amp currently in use. When packing turntable, the arm which does not lock should be secured to post it sits in with wire twisty. There should be a bunch on shelf directly underneath turntable. Box for my computer is in basement. In that box is a box for my external drive which will assure it's safely moved.

There is also PA equipment, including a power mixer, a monitor speaker and tons of cords. There is a duffel bag at the foot of my bed with speaker cords, mic cords and other stuff. Guitar cords and more speaker cords are in other bag with several pockets near my bureau. Also in this bag are remaining copies of my album, two Shure Mics, guitar stands and various connecting cords.

There are two guitar amps, the Peavey which probably isn't worth very much and the tan 61 Fender Princeton which is worth big bucks.

Again, Epiphone I want to go to Tony, the Martin goes to Trev.

All photos go to Tony. There are several pics blown up that you might want to use at memorial if it happens.

Sam's landline is 215 848-8961. His cell is: 215 370-5766

His email is: samd1937@earthlink.net.

He has a deposit for last month's rent which can be used to clear out the house. I will see if I can get additional (skeleton) keys to my room. Btw, my rent was \$550.

If Sam doesn't answer phone, contact Craig Bellet. His cell is: 215 354-8334 and you can text him.

In top left drawer of desk is my insane envelope system for various passwords and various receipts. Among the important ones are the computer which says HP computer warranty on envelope. If say PC goes to Tony and he gets locked out the user name (my old Verizon email address) and the pass should open it.

And finally, I want the Epiphone to go to Tony and the Martin to go to Trev.
